HERO MEDALS TO ANGELENOS.
Deed of Two Youths Told.
Commission Awards Recognition for Saving Maiden's Life.
L. Maser and James Jones Local Recipients of Bronze Token.
Girl of Bertha L. Pillsbury Youngster Three Years Ago Is Rewarded.

(By the Staff.)
FEBRUARY 19, 1911. (Exclusive Dispatch.) The Carnegie Hero Fund Commission today forwarded twenty-six more hero medals in different parts of the world. As in all other cases, the medals were given to the hero and his family. The hero of the Bertha L. Pillsbury case, a young man named L. Maser, who was only three years old when he saved the life of the girl, was awarded a bronze token. The medal was given to him by the Carnegie Hero Fund Commission. The medal was given to him by the Carnegie Hero Fund Commission. The medal was given to him by the Carnegie Hero Fund Commission.

ICE CREAM BUYS WOMEN'S VOTES

WHERE FAIR SEX WIELDS BALLOT.

Opponents of Suffrage Cite Instance of Feminine Indifference to "Rights" in Hearing Held at Sacramento.

Jury-Dodgers of Washington State Held Up As Example of What California May Expect.

(Associated Press Night Report.)

SACRAMENTO, Jan. 18.—Every State of the Union from Massachusetts to Washington was raked to light for what woman's suffrage will or will not do, in a public hearing on the subject held tonight in the Senate chamber of the Legislature. Delegates representing both opinions were present from as far away as Los Angeles, while the anti-suffragists also had in their ranks Miss Minnie Brunson of New York.

The pit-a-pat of gloved hands, and modulated laughter were heard following the telling shots of each speaker. Personalities of national interest were made to figure in the argument, the anti-suffragists asserting that Miss Jane Addams, founder and head of Hull House, Chicago, who has been termed "America's foremost citizen" was by her life, an example of how much more a woman could do without suffrage than she could hope to accomplish with it.

Massachusetts, Wyoming and Washington, were freely drawn upon in illustration, but the main contention evidently lay about Colorado. Of this State the suffragists asserted that it had many good laws because of the influence of women, and the anti-suffragists as flatly declared that the women had done nothing remarkable and that some of the boasted reforms were full of holes from a legal point of view.

Of Washington it was said that the newly enfranchised women already were begging off from jury service and that, by an election at Anacortes, it was shown that women do not make an appreciable new factor in the liquor question.

HEARING ON BELL'S BILL.
The hearing was on a constitutional amendment (S. C. A. 6) introduced by Senator Bell of Pasadena, an administration leader, providing equal suffrage for women. This was in pursuance of a plank carried in both party platforms at the last State election.

Miss Elizabeth Gerberding of San Francisco, the leading speaker of the suffragists, was introduced by Mrs. Charles Farwell Edson of Los Angeles, head of the suffrage delegation from that city.

"To submit the question of suffrage to a vote of women alone as has been proposed, would be unfair," Mrs. Gerberding declared. "The women have

EELY, SOARING OVER OCEAN, LANDS ON CRUISER; RISES WITH EASE.
Daring Feat of Bird-man Proves Value of Aeroplane in Naval Warfare.

Lightly as a Feather Curtiss Racing Biplane Lights Upon Deck of Pennsylvania After Graceful Sweep Through Air from Selfridge Field, San Francisco.

Apparent Ease Robs Flight of Spectacular Features.

(Associated Press Night Report.)

SAN FRANCISCO, Jan. 18.—Flying a Curtiss racing biplane, Eugene B. Eely today made a successful landing on the cruiser Pennsylvania, and an hour later rose from the deck and flew back to Selfridge Field, twelve miles away.

The feat was accomplished without mishap. Not a wire or bolt of the delicate mechanism was injured and the seeming ease of the whole performance lessened the spectacular effect.

"It was easy enough," said Eely, as he stepped from his seat and was seized by the cheering soldiers of the Third Infantry and hoisted on their shoulders. "I think the trick could be successfully turned nine times out of ten."

Eely's flight was a feature of the programme of the aviation meet, which is in progress here.

Adverse weather had caused postponement of the attempt from day to day, but when Eely reached Selfridge Field this morning and sized up the atmospheric conditions as favorable, he at once decided to make a try at it. The day was smoky but windless and the air heavy.

RISES WITH EASE.
It was just 10:45 o'clock when he left the ground and there were few spectators in the field, excepting the officials of the meet and the Third Infantry, encamped within the inclosure. He rose easily, his motor working perfectly. After a few trying-out circles he ascended rapidly and heading northward swept over the San Bruno hills and disappeared.

In the meantime the wireless had notified the cruiser, at anchor with the fleet in the bay, that he would make the attempt, and final preparations were made for his reception. A wooden platform 120 feet long and fifty feet wide, had been constructed over the stern of the ship. It stood squarely at right angles to the ship's axis, and across the floor were stretched ropes with 100 pound sand bags made fast at either end. These were designed to be caught by hooks on the lower framework of the biplane. As a further precaution, a canvas barrier was stretched across the forward end of the platform. Launches and ship's boats fully manned were put out in event of a mishap.

Eely had installed two seven-foot pontoons under his lower planes to float the machine in case he was forced to descend on the water, and forward he had built a hydroplane to keep the aeroplane aloft during work perfectly.

LANDING IS PERFECT.
At 10:55 the lookout on the Pennsylvania sighted the flyer through the haze and the ship's siren roared a blast of welcome. He came on at a terrific speed and a moment later circled around the fleet, dipping in salute to each ship and came up in the wind for the stern of the Pennsylvania. He was flying low as he neared the ship and dropped down as lightly as a gull, striking the platform about forty feet from the end. The hooks which had been arranged in the center piece of the aeroplane did their work perfectly. The machine skipped about half of the ropes, but caught ten of them and was brought to a stop within twenty-five feet.

When Eely touched the deck he was going at the rate of about thirty-five miles an hour, but so gradually was the speed checked by the dragging of the sandbags as they were picked up in succession, that he was brought to a stop without disarranging any part of the machine. In fact, he could have started on his return trip five minutes after landing.

There was a great outburst of cheers when it was seen that the landing had been successful, and a rush of officers, sailors and sailors to greet the aviator. One of the first to reach Eely was his wife, who had been given a point of view on the bridge by Capt. Pond.

THE RETURN TRIP.
After submitting to the ordeal of being snapshotted by photographers, Eely was taken below to the captain's cabin, where he was the guest at luncheon.

In the meantime the machine had been turned around, the hooks on the bottom of the center piece removed, and the gasoline replenished in the tank.

In just exactly one hour of the time he landed, or within two minutes of noon, Eely took his seat in the machine and gave the word to let go. The aeroplane swept down the 120-foot platform at a high speed, dropped off the stern with a gentle dip, and then

GIRLS OF TWELVE AND FOURTEEN VICTIMS OF SEE'S PERFECT LIFE.

Little Maids Tell of Living Into "Temple" and "Consecration" to New Cult—Mob of Men, Women and Even Children Besiege Courtroom for Glimpse at "Prophet" and Disciples—"Disgusting Scenes."

(By Direct Wire to the Times.)

CHICAGO, Jan. 18.—(Exclusive Dispatch.) "I, myself, am not the savior of the world, but I will soon spread broadcast to the farthest corner of the universe, that will make man pure, perfect, infallible."

Evelyn Arthur See, whose queer teachings sent him to jail, today sought to correct what he termed a misunderstanding of his doctrine.

"Chicago is prejudiced against me, and the clergy, too, have taken a stand against me simply because I misunderstood my fundamental principles," he said. "I am not a supreme being, but an ordinary man through whom the 'spirit' revealed 'The Life'."

A woman, probation officer, whose name is withheld, is authority for a story to the effect that two girls, aged 12 and 14 years respectively, were alleged victims of See.

The story came to light today, and information as to the identity of the girls will be furnished Captain Max Danner of the Sheffield avenue police force for the purpose of charging the "Prophet" with a new offense.

The two girls are said to have visited the Callahan brothers, counsel for See, in their office in the Ashland block, where they told how they were lured into the "Temple" at No. 241 Racine avenue, and there "consecrated" to "The Life."

NEWS LEAKS OUT.
The police, until today, were kept in ignorance of the existence of the girls, and they were the first alleged victims of the cult leader under the age of 15 years to be found.

"Where did you get your information about the little girls?" asked Francis J. Callahan, one of the attorneys for See, when the matter was broached.

"Will you give out the names of the girls?" was asked.

"Why should we?" demanded the lawyer. "We are defending See, and not prosecuting him."

"Will you send the girls to the police?"

"Most certainly not."

"The most sickening, disgusting mob that ever crowded in upon a trial in Chicago," is Police Capt. Danner's description today of the morbidly curious throng that assailed the Sheffield avenue Police Station in the expectation of hearing the case against Evelyn Arthur See brought to trial. Men, women, and even children, eager for sensation, crowded the courtroom, pushed and jostled and fought their way to the little courtroom upstairs over the station.

MOB FIGHT TO SEE.
Those who could not gain admission to the station fought with each other on the outside for the purpose of being the first to hear any transmitted reports from the courtroom, and in order to catch a glimpse of Mrs. Stephen Hudson Bridges and the two "priestesses" of See's cult, who accompanied "Mona Rees and Mildred Bridges, two were trampled upon, coats torn, and even the plumes on women's hats were dragged off.

Whenever a photographer attempted to secure a picture of the crowd, the men and women who composed it tried to conceal their faces so that their identity would not be made known and their presence at the place discovered. Women held their muffs before their faces and men set their hats at angles that prevented a good view of their countenances.

HEIRLESS WEDS CARPENTER.
Stern Papa Relents When News Is Broken to Him Over Telephone. Russian Immigrant Wins Bride.

(By Direct Wire to the Times.)
BALTIMORE, Jan. 18.—(Exclusive Dispatch.) "Hello, papa; this is Estelle. Do you forgive me? 'Come on home.'"

So ended the tribulations of Miss Estelle Fisher that was, but is now the bride of Martin Dorman.

Estelle is the owner jointly with her mother, of an estate of \$500,000 left by her mother, and has a still larger estate in prospect, having a rich father and a millionaire uncle.

Martin Dorman, shortly after his arrival from Russia, secured work from Mr. Fisher as carpenter. His work pleased Fisher and his personal qualities attracted the daughter, Mrs. Fisher died recently, and the young couple, tired of waiting for the father's approval, slipped over to Washington, where a rabbi tied the knot.

STENCH FROM BALLOT BOX.

Grand Jury Shakes Bribery Lid.

Illinois Vote Investigation Promises the Buzzards Bilious Attack.

Developments Expected to Outthink Ohio Case in Vermillion County.

Inquisitorial Body Ordered to Play No Favorites in Investigation.

(By Direct Wire to the Times.)

DANVILLE (Ill.) Jan. 18.—(Exclusive Dispatch.) Vermillion county, Illinois, is at present situated directly over a seething, hissing volcano, which threatens to erupt at any moment and blow the whole political machinery of the district into atomical shreds.

The "volcano" is personified in twenty-three grand jurors who are sitting in session in the Courthouse here. Under their sworn oath they are to investigate the wholesale buying and selling of votes in the county.

SENATION FOMENTS.
It takes but a single rift in the thin crust that now overlies the surface and an election fraud scandal far overshadowing the Union City, Ohio, situation will be bare.

Everywhere among politicians and business men the situation is regarded as more than serious. No one doubts that elections in Danville, Vermillion county for five years ago, were more than a success.

Everywhere, who is a wealthy banker at Ridge Farm and a former farmer, is a determined, careful man. The grand jury will show neither fear nor favor. It has been public knowledge that votes have been bought and sold.

Rumor has it that the "bought vote" in Danville township alone is \$50,000, \$24 that 1909 may be added to the list in outside townships.

The negro vote is swayed with money like leaves in a wind. The foreign miners are led to the polls with money as their bait. The conditions at the Soldiers' Home also needs investigation.

Foreman Woodard fully realizes the great task that lies before the grand jury. When Circuit Judge E. R. E. Kimbrough delivered his instructions to them he told the inquisitorial body that they must act as they saw it in the inquiry, independently from further instructions by the court and without direction from State's Attorney John F. Lewman.

SEEK MANY WITNESSES.
Briefly stated, the situation is this: The grand jury proposes to issue 100 subpoenas at once for witnesses who are said to have knowledge of "bought votes." The elections subject to inquiry are the primary of September 15, 1910, and regular election of November 8.

The Ministerial Association of Danville, has taken a hand and is said to have furnished a list of vote buyers to the State's Attorney. Wholesale charges of fraud and vote buying are made indiscriminately regarding recent elections in many towns of Westville, Grape Creek, Belgium and Ridge Farm. The evidence is declared to be ready for presentation to the grand jury.

The politicians of the county who bought thousands of votes, say they welcome the inquiry. Under the 1910 primary law, they are granted "immunity" but the vote seller is liable to punishment.

SURPLUS ACE GOT HER GOAT.

Wife Wants Divorce Because Hobby Held Five "Bulls" in Friendly Poker Game.

(By Direct Wire to the Times.)

NEW YORK, Jan. 18.—(Exclusive Dispatch.) If the word of Mrs. Laura Elizabeth Cogswell is to be accepted as gospel, five aces mark the chief cause today of her complaint of desertion and cruelty on file against Dr. Henry B. Cogswell.

It was in the fall of 1903 that Dr. and Mrs. Cogswell went to poker playing in the house of Austin R. Broger, an artist. There were four in the game. "I stopped the game when I found my husband had too many cards in his hand," she told a reporter. "Too many cards," echoed the reporter.

"Yes, Dr. Cogswell had five aces," was the crushing reply. That was the beginning of the end. From that time, Mrs. Cogswell said, she began to lose confidence in her husband.

He admitted he and Mrs. Thomas occupied adjoining rooms at the Hotel Belmont after she parted from her

He admitted he and Mrs. Thomas occupied adjoining rooms at the Hotel Belmont after she parted from her

CIAL "MIXERS" AT A DISCOUNT.

Preaching the Demand of the Baptists.

Convention Hears Sensational Talk on "Problems."

ed Speakers to be Heard Today and Tomorrow.

"We do not hesitate to pour money into foreign fields for work, with no apparent return, with exceeding meager results. Brethren, why should we all to use the same consecrated generosity with our own fields as at home?"

"By what rule of Christianity would we commercialize our work to a point where we will not money into a place only when we see immediate results on the expenditure?"

"I do not care how small the church is, they always say: 'Send us a man who can reach.' And, my brethren, every minister ought to leave no one returned, to become the good preacher in the convention, good preacher will get a congregation, even in the wilderness. I do not care, the snap of a finger for the man who is simply a social mixer."

"We need men who would rather be the Tucker-Carter-Browners, all combined, in his own town, than to be a pastor of a city church, and let that good Baptist be sending by his church to hear some other man, when they ought to be in his own congregation."

to be some of the trenchant words, toward the close of an address before the Baptists of California yesterday afternoon in convention in Calvary Church, of which Rev. W. Leon R. is the pastor.

speaker was Rev. A. H. Bailey, at-large of the denomination on his subject being, "Conventions of the Country," and came at the close of a remarkable address of facts that created a sensation.

uppression made by the address was judged by the fact that immediately following the delivery it was printed in its pamphlet form and copy in the hands of every Baptist Southern California. The convention voted \$20,000 for the work out-

give a true picture of the conditions in the country, he is neither an enemy nor a friend. It may as well be frankly admitted that such a picture will not be to look upon.

problem is to do with forty as in Southern California. It has with churches that are almost as if they were in the heart of the desert. It has to do with struggling bands of God's people surrounded with a heathenism and a need as great as any to be found in Asia or Africa.

pastors who are brave; with the most staid and greatest of us wrecks with men and women needs are as great as any to be found in Asia or Africa.

Old Sea-Dog of White Squadron, Here on Business, Talks on Matters Naval With All Old Fire-Fores Friction With Japan and Recommends Big Navy for West Coast.

In mind that our field covers square miles, with but eighty-six churches in all the territory. There are Baptist churches in the city of Los Angeles alone that in either the eastern or the Santa Barbara region, and the Los Angeles Association than in all the others.

not to make his hearers understand some of the problems are, he gave a large number of solutions of the difficulties that confront churches and great service for the convention.

BOOM DAY MEMORY. A town of 150 inhabitants, he is a Baptist church which cost \$10,000. The membership was large, but the church failed to attract new members. The church was abandoned, no one taking enough to even lock the door. Boys and girls were playing in the windows and the interior of the building became the prey of vandals. A minister of another denomination, who had been a member of the church, started a Sunday school in the building. A crowd into the parsonage and were two years without paying. Recently the property was sold to the convention, and one of the members of the church, who is a Baptist, moved out. The church was abandoned, no one taking enough to even lock the door. coupled, and money poured in for the support and maintenance of the work, simply as a business proposition looking forward to the future," he said. "We ought to hold other fields on the ground of military urgency. Many a general plants forts and mans them at great expense, far on the outskirts of his field of operations. The soldiers in these frontier forts will never have part in the big battles, nor see the brilliant victories, and it is not an easy place to be a good soldier. Yet these efforts are absolutely necessary, and without them victories will never be won on the frontier line."

"It is safe to say that a man is one of the necessary factors in the solution of most of these problems. It does without saying, that a man must be a preacher, and too much emphasis cannot be placed on that fact."

Mr. Bailey declared that the solution of the whole matter is to be found in every Baptist church becoming a missionary church. He cited the division of the Baptist in India, the mission and anti-mission lines. In 1822, there being 3000 members in each faction. Fifty years later, the anti-mission Baptists had grown to 27,000. The same thing occurred in Ohio in 1826. Fifty years later the nineteen anti-mission churches had exploded into four, with 151 members, while the six missionary churches, had increased to sixty-five, with more than 7000 members. In North Carolina, in 1840, a division occurred on the same lines. In fifty years the 12,000 anti-mission Baptists had not increased, but the 14,000 missionary Baptists had increased to 200,000.

At the close of the address there was a warm discussion of some of the problems presented. There was a slight disposition on the part of some members of the convention, to oppose the request of the Board of Managers for a fund of \$25,000, to be expended in church support and the organization of new work during the coming year, but no votes were cast against it.

NOT GOOD BUSINESS. A. P. Griffith, a wealthy and influential member of the board, called the attention of the body to the fact that they had on previous occasions voted to furnish certain amounts of money, but had not always done as they promised. In one instance he said he found himself the sole endorser on a note for \$500,000, which was not paid. He reminded them that that was not a business way of keeping their obligations.

Rev. J. B. Fox of San Diego, in the course of an ardent speech, calling for a faithful performance of the obligation just voted, said:

"I am glad to see you all here in the pews, are everlastingly calling on the board for help. Get in and do it yourselves. Don't be afraid to do things for God."

He advised them to apply the principle of "intensive farming" to their work for the church, and the aggregate result would be far more money than the board has asked for.

Other addresses were "The Problems of the City," by Rev. F. D. Finn, and "The Problem of the Colored People," by Rev. J. A. Trimble.

Last night addresses were delivered by Rev. W. McCarty, on "Nevada's Need," Rev. George M. L. Leavelle, on "Evangelism," Dr. J. Whitcomb Brounger, "My Ambition."

The business sessions will continue today, and this evening Dr. C. M. Carter will speak on "The Great Permission," and Dr. Robert J. Burdette, on "The Home Acre."

Friday morning session will be full of interest, among other things being an address on "Men for the Ministry," by Rev. Albert Hatcher Smith. Friday afternoon there will be a mission service at which there will be many reports and addresses. Dr. J. A. B. Scherer, president of Throppe Polytechnic Institute, will speak on "The Japanese Problem." Friday evening, the closing address of the convention will be delivered by Dr. W. H. Geistweitz, his topic being, "What Shall We Become?"

Heart Courageous. WARLIKE SPIRIT STILL AFLAME.

"FIGHTING BOB" EVANS KEENLY ALERT AS EVER.

Old Sea-Dog of White Squadron, Here on Business, Talks on Matters Naval With All Old Fire-Fores Friction With Japan and Recommends Big Navy for West Coast.

Gray and grizzled, yet as terse and snappy in his keen decisiveness as he ever was on the bridge of the flagship of the White Squadron, Rear-Admiral Robley D. Evans, U. S. N. (retired), addressed the convention on the subject of "Fighting Bob" Evans arrived in this city yesterday. It is the third time within three months that the lure of California has brought the old fighter into the Golden State, though in the interim his visits have been to San Francisco.

"You wouldn't know I was 64 years old, would you?" he fired at his interviewer at the Van Nuys last night, shooting out the words with all the abruptness of a broadsword. The negative had to be admitted. The retired admiral, with forty-nine years active service behind him prior to his retirement two years ago, hardly looks older than that himself. His eyes are as clear and keen as a hawk's, his hair is as steady, his voice as level. And the spirit of the sea, the taste for the tang of salt air mingled with battle smoke, is as strong in him as ever.

"Go to sea again?" he cried. "My dear sir, there's nothing in the world I should like to do as much as to go back to the sea tomorrow on a vessel of the Dreadnought class for choice, but back to sea, anyway. If there should be another war, it isn't a question of what I would do—it's only one of what they would do with me. Because I should offer my services to the authorities as a matter of course, provided I could walk out of the door. There is nothing unusual. Any officer would do it."

As to the probabilities of international complications at any time in the near future, the former naval officer was non-committal.

"You never can tell," he said. "When a war comes, it will come quick. There won't be time to notify you after it is six months beforehand—it'll come by telegraph."

"So far as the Japanese matter is concerned, there is no reason for mentioning Japan in that connection than any other country. I'll tell you this though—when the United States assumes the position in the Pacific that she ought to take in reference to commerce, there will come very serious friction with Japan on that one thing."

"American people are going to wake up some day to the fact that they should have their flag aloft over a great merchant marine. When that day comes it is going to bring with it a friction that is a trillion of dollars and cents with Japan, and no man can

The rear-admiral is of the opinion that the attitude of the coast States in the matter of forthcoming legislation, in regard to the people of the eastern seas is something that will also become a source of trouble if allowed to proceed. He thinks, however, that anything untoward will be headed off by national intervention in time to prevent a clash of arms. The question of western defense in such a contingency, he was almost savage.

WANTS WESTERN FLEET. "A fleet for the West Coast?" he exclaimed. "Well, I should say so! As things are now, you are absolutely helpless as regards the Pacific. The only possible and practically means of coast defense is by the navy and the requirements on this side are not less than for a fleet of sixteen battleships to be put permanently in commission here. Besides, there should be at least eight more held in reserve to be put into commission in case of necessity. That would about balance the naval defense of the East; which is as it should be."

"While I am rather out of touch with the situation, I believe that the navy will get the regular increase this year, and that is, two new battleships. Then I understand there are to be some torpedo boats and submarines for the Pacific Coast, long as the government, as shown by the matter of the fortifications of the Panama Canal, in favor of an increase in naval strength, which is the rational method of coast defense."

Of the retirement of Rear-Admiral Barry and the circumstances surrounding it, the man who was himself long a navy resolutely refused to say a word, beyond the fact that he had already grown up about the matter.

It is in connection with the affairs of the California Oil Company, of which he is president, that Rear-Admiral Evans is in California on this occasion. He says, however, that he has been here for some time, and that it is not unlikely that he and his family may remove from Washington to the near future.

His party, which will be here for several days, consists of himself, E. V. P. Barry, vice-president of the company, and Manufacturers' Exchange of New York; Theodore P. Gilman, former Controller of New York State; R. P. Wack, also of the metropolis, and Robert Lee Dan, long a resident of the West for Collier's Weekly. All of these are interested in one way or another with the interests with which Rear-Admiral Evans is connected.

LETTERS TO "THE TIMES."

That Million. LOS ANGELES, Jan. 18.—(To the Editor of The Times): Your editorial of the 15th inst. struck me like a hammer. We want a million people and must have them, but in order to get them we must have a million dollars and make a greater effort than ever. Los Angeles is a great playground, but not sufficiently large for a million people. We must have a million dollars and make a greater effort than ever.

Ailments of Men Happily Overcome

SUCCESSFULLY TRIED BY MANY.

Undoubtedly the following prescription will send wonders for that great class of men who, through disintegration of their natural strength, and themselves in their "second childhood," before the three score and ten allotted to life's pleasures and enjoyments are reached.

It is presumed to be infallible, and highly efficient in quickly restoring to "nervous exhaustion," weak vitality, melancholia and all conditions of a constitutional nature. First get 20 cents' worth of compound fluid balmwort in a one-ounce package, and three ounces syrup and a quart of water. Take one ounce, mix and let stand two hours; then get one ounce compound and one ounce tincture cadomine compound (not caromine). Mix all in a six-ounce bottle, and take one ounce and take one teaspoonful after each meal and one when retiring followed by a glass of water.

By mixing it at home no man need be the slave of a doctor. It is a short course and expensive fees are avoided. Lack of noise and equilibrium in men is a constant source of embarrassment even when the public least suspects it. For the benefit of those who want a constant source of cheerfulness and all the happiness accompanying it, the above home treatment is given. It contains no opiates or habit-forming drugs whatever. Mix it at home and no one will be the wiser as to your affliction.

It is not only hazardous but very expensive, and any man, association or corporation that backs up its judgment by justifying the future of the world by developing this industry is entitled to all he gets.

If Congress, for naval or other purposes, desires to withdraw a portion of our oil lands from entry and provide for the development of the same, we presume there would be little, if any, objection made by oil men. But this proposition of the government stepping in and rooting out legitimate operators who have spent their time and hard cash in proving the oil bearing character of the territory will not appeal to a lover of justice and fair play.

So far as we know there is nothing in the territory that is not a part of the development of its mineral resources which would entitle it to participate in the profits derived therefrom. In Canada if you can show that you have made a discovery worthy of development the authorities will build a road to the territory and the expense of the government. Washington wouldn't give you a penny's smile.

We believe that 99 per cent. of the people who are interested in the development of the mineral resources of this country, directly or indirectly, are strongly opposed to any change whatever in the present law of our mining laws. If it is right and just to pay a royalty to the Federal government from the production of oil it is equally right and just to pay a royalty from the production of the precious metals such as gold, silver, copper, etc.

"Poor man's" interest in preventing the corporations from gobbling up the territory is not a new thing. It is a poor man can get into the oil game through a corporation, and the corporations are to be restricted to the same amount of territory, (160 acres) as individuals under the proposed law. It is not a new thing. It is a poor man can get into the oil game through a corporation, and the corporations are to be restricted to the same amount of territory, (160 acres) as individuals under the proposed law.

According to the administration's measure the first time Mr. Man must be to be pumpe up \$100 for a two years exclusive permit to explore for oil on a compact body of mineral land not exceeding 160 acres. If he fails to get a discovery he must pay \$100 for the work and materials upon the claim during the year. At the expiration of the second year he must pay \$100 for the work and materials upon the claim during the year. At the expiration of the second year he must pay \$100 for the work and materials upon the claim during the year.

S.S.S.

CURES RHEUMATISM

There is no subject about which we can talk with more confidence than that of curing RHEUMATISM with S.S.S. Forty years is a long time, and when a remedy consistently performs any work for such a lengthy period there can be no doubt about its value. This is the record of S.S.S. in the treatment of Rheumatism. For nearly a half century it has been curing sufferers of this disease, and has more living witnesses as to its curative virtues than any other remedy. Each day's mail brings letters from men and women who have been afflicted with this trouble, telling us that S.S.S. has cured them, and they are once more free from its aches and pains.

Rheumatism is a blood disease, due to an excess of uric acid in the circulation. Its primary cause results from weak kidneys, constipation, indigestion, etc. In other words the eliminative members do not carry off all the urea and refuse matters of the body, and these impurities being left in the system soon sour and ferment, causing uric acid, which passes from the stomach and intestines into the blood.

When the uric acid gets into the circulation it causes a partial fermentation of the blood, which changes it from a thick, rich fluid to a thin, acid stream, whose nourishing properties are greatly impaired. Through the circulation the uric acid is carried to every muscle, joint and nerve of the body, and then the pains and aches of Rheumatism commence. The longer the blood is allowed to remain in this acid, weakened condition the more severe will the disease become; gradually the muscles harden and lose their elasticity, the joints begin to stiffen, and frequently calculus deposits collect and form lumps and knots at the finger joints.

The pains of Rheumatism can sometimes be temporarily relieved by the application of plasters, liniments, hot cloths, etc., but such treatment can have no possible curative effect on the disease because it does not reach the blood where the real trouble is being harbored.

There is just one way to CURE Rheumatism, and that is to cleanse the blood of the uric acid poison. S.S.S. goes down into the blood, and attacks the disease at its head, and by removing every particle of the cause and PURIFYING the circulation cures Rheumatism permanently. S.S.S. eliminates the uric acid because it is the greatest of all blood purifiers. It filters out every trace of the sour, inflammatory matter, cools the acid-heated blood, furnishes the material for multiplying the rich, nutritious corpuscles of the circulation, and by its fine tonic effects assists the system in rapidly overcoming every effect of the disease. S.S.S. contains no minerals but is made entirely of botanical roots, herbs and barks. It may be taken, therefore, by any one without fear of the bad effects that so often follow the use of medicines containing mineral salts. It has cured thousands of cases of Rheumatism and it will cure you. Special book on Rheumatism and any medical advice free to all who write.

SURELY BREAKS UP A BAD COLD.

The Most Severe Cold and Grippe

Misery Will Be Relieved in Just

A Few Hours.

No man or woman reader of The

Times need have a bad cold or suffer

from the Grippe any longer than it

takes to go to any drug store here in

Los Angeles and get this effective

Compound.

It is a positive fact that a dose of

Pape's Cold Compound taken every

two hours until three consecutive

doses are taken will cure Grippe or

break up the most severe cold, either

in the head, chest, back, stomach or

limbs.

You distinctly feel the cold breaking

and all the disagreeable grippe sym-

ptoms leaving after the very first dose.

It promptly ends the most miserable

headache, neuralgia pains, dullness,

head and nose stuffed up, feverishness,

sneezing, sore throat, running of the

nose, mucous catarrhal discharges,

soreness, stiffness and rheumatic

twinges.

Pape's Cold Compound is the result

of three years' research at a cost of

more than fifty thousand dollars and

contains no quinine which we have

conclusively demonstrated is not ef-

fective in treatment of colds or

grippe.

Take this harmless Compound as di-

rected, with the knowledge that there

is no other medicine made anywhere

else in the world, which will cure your

cold or end Grippe misery as promptly

and without any other assistance or

bad after-effects as a 25-cent package

of Pape's Cold Compound which any

druggist in the world can supply.

Remorse Gets Him.

CONFESSES HE

IS EMBEZZLER.

Prisoner Says He Is Fugitive

from Alabama.

Was Deputy Clerk in United

States District Court.

Blames Downfall on Gam-

bling and Wine Cup.

Arrested after a flight of about 2500

miles, M. Keating, formerly deputy

clerk in the United States District

Court at Montgomery, Ala., started the officers

at police headquarters by confessing

that he is a defaulter of government

funds to the extent of more than \$2000.

Federal officers in Los Angeles

quickly communicated with fellow-offi-

cers in Montgomery, and the result

of the investigation will probably be

known today. The prisoner's state-

ments bear the stamp of truth, and

little doubt is entertained by the po-

lice that Keating is really wanted in

the Alabama capital.

The first heard of Keating in Los

Angeles was at 10 o'clock yesterday

morning, when, gloriously drunk, he

entered the Arcade depot and ordered

the waiting passengers to clear out.

The passengers objected and the re-

sult was a battle royal in which Keat-

ing was bested by Edgemoor Keene.

Keating, full of "squirrel whiskey,"

showed the police what is called a

lively time, even at the Central Sta-

tion, where he was searched under re-

straint by two or three officers.

He told the desk sergeant his name

was "S. Schroggin." Then he put up

another fight, but was finally ushered

into the drunk tank.

CONFESSES GUILT.

As the afternoon wore on, the effects

Events in Local Society

THE approaching departure for Europe of Mr. and Mrs. J. Ross Clark of No. 715 West Adams street, will be the cause of many smart functions during the next fortnight.

Tuesday, Mrs. Joseph K. Clark of No. 593 Lake street, entertained with a small, though enjoyable luncheon at the California Club complimentary to her brother-in-law, J. Ross Clark and Mr. and Mrs. Charles T. Whitney of Portland, Or.

A mound of brake ferns with violets and pink rosebuds was the attractive table centerpiece. There were covers for Judge and Mrs. Bickford of Montana, Mr. and Mrs. John W. Kemp, Mrs. Walter V. Smith of Portland, Or.; Judge and Mrs. M. Knowles of Montana, E. F. Clark, Miss Lucy Clark, Lieut.

Cahow and wife, Omaha, Neb.; J. D. Whitmore and wife, Grand Island, Neb.; Mr. and Mrs. S. B. Wood, New York; Robert Hassler, Seattle; Mrs. John Wilde, Los Angeles; Mrs. Lillian Mead, Hollywood; Mrs. T. M. Thompson, Iowa City, Iowa; Miss Edith Wilde, Los Angeles; Ida Peterson, Minneapolis, Minn.; Mr. and Mrs. J. Martin, Chicago; Mr. and Mrs. M. Morris, Chicago; Miss Bertha Morris, Chicago; Mary L. Rounsdel, Great Barrington, Mass.; Mrs. M. C. White, Memphis, Tenn.; Mrs. James M. Carpenter, St. Louis, Mo.; W. T. Bradberry, Pittsburgh, Pa.; H. G. Foote and wife, Minneapolis; N. W. Swife and wife, Fresno; F. M. Romain and wife, Fresno; George C. Miller, Los Angeles; Mrs. Alfred Crebbin, Denver; Miss Barbara Crebbin, Denver; Mrs. F. F. Mead, Seattle; C. H. Thompson and wife, Los Angeles; Mr. and Mrs. A. B. Hammond, San Francisco; H. W. McLeod, Los Angeles; J. L. Hall, Volga, S. D.; Mrs. J. W. Hobbs, Eugene, Or.; and Mrs. J. Douglass Braly, Los Angeles.

Birthday Anniversary.
In celebration of the eighty-fourth birthday anniversary of her mother, Mrs. Eleanor Bates, Mrs. C. B. McClelland of No. 525 North 80th street, entertained this week with a dinner party. Potted plants and flowers brightened the room. The guests were Mrs. Charles E. Best, Mrs. J. E. Elkins, Miss Inez McClelland, Charles Elkins, and Helen Elkins.

Mrs. Brent Hostess.
Mrs. Edwin J. Brent entertained with one of the most enjoyable functions of the season at her beautiful Berkeley Square home Tuesday afternoon. Miss Maude Elizabeth Richards, who recently returned from an extended eastern trip was present as special guest. Cecil Brunner roses and violets were used in the dining-room while elsewhere yellow flowers were utilized.

WOMEN'S WORK. WOMEN'S CLUBS.

BY SYDNEY FORD.

The women of the Ruskin Art Club are doing some strenuous work this year in a thorough and satisfactory manner, having taken up the subject of Spanish America. Since December their studies have had to do with Mexico and any member of this club is safe to say, is pretty well equipped by now with the history, literature, geographical, biographical and topographical points of this fascinating neighbor to the south of us.

Yesterday, the topic concerned the Valley of Mexico and Mrs. Union gave a comprehensive description of the locality while Miss Laura Emery told some delightful legends of the City of Mexico. Mrs. Donald Skeel was in charge of the programme.

Tomorrow afternoon from 3 to 5, Mrs. Erskine M. Ross will entertain the members of the club at her handsome home in compliance to the club's president, Mrs. W. H. Bradley, who is a friend of the hostess and who, several years ago, enjoyed a foreign tour with her. The nature of the function will be a musical and the splendid organ which is a feature of this handsome home will contribute to the melody of the occasion under the skillful touch of Mr. Strowbridge. Mrs. Ross's son, Allan Hancock, is an accomplished court and will add to the attractions of the programme. Misses J. W. Hendricks, Samuel Storrow, O. F. Grant and Miss Suzanne French have been asked to receive with the hostess.

No Wonder We Got It.
The invitation which brought to California the biennial meeting of women's clubs for 1912 was couched by our State president in such graceful and compelling style as this: "California, the land of gold and sunshine, the land of fruit and flowers, golden not only in our streams, in our deserts, but gold transmitted by the club women into twelve public schools, in the thirty art scholarships, in twenty-seven attractive clubhouses. Sunshine in our climate, which allows us only two kinds of climate, the pleasant and the unpleasant, weather, sunshine also in the hearts of our 25,000 club women, representing 266 clubs and 140 towns. Flowers everywhere, gold, sunshine, flowers—all yours if you heed the message of our little flag which bears a great invitation 'Come to California.'"

Club News.
Mrs. William Baubry, president of the Los Angeles district of federated women's clubs, will address the Maltese Musical Club this afternoon at their regular meeting at Gamut Hall. She will speak of the relation of music to the federation.

Church Wedding.
Tuesday evening in the Euclid Heights Methodist Episcopal Church, Mrs. Mary Lowell Goodwin became the bride of Lewis Carroll Baker, the Rev. Fred H. Ross assisted by the Rev. C. J. Miller officiating. Miss Myrtle Baker, sister of the groom, assisted as maid of honor and the bridesmaids were Miss Mary Schrook and Miss Lola Blessing. Wilhelmina Corson was flower girl and the best man was Lawrence Clark and the groomsmen were Roy Parent and Charles Bailey. Little Alice Sawyer and Pearl Baker assisted as gate girls and the ushers were Miss Irene George, Miss Constance White, Miss Leila Cooper and Miss Jane Wyatt. The bride's gown was of white silk mull, with this was worn a long veil. She carried a shower of lilies of the valley and bridesmaids carried white roses. The bride's attendants carried sweet peas and wore gowns of pale blue, while the gate girls and ushers were attired in white with garniture of blue. The church was decorated to represent a garden scene, choice flowers and shrubs being used to carry out the idea. Above the heads of the bride party a huge ball filled with rose petals has been arranged and at the conclusion of the service this swayed and showered the petals upon the young people. About 200 guests witnessed the service. Later, a reception for members of the bride party and relatives was held at the home of the bride, No. 648 East Sixth street. A two weeks' party will be given by Mr. and Mrs. Baker when they make this city their home.

Charming Young Visitor.
Miss Helen Hatt of San Francisco is the house guest of Miss Adeline Stanton of No. 426 West Third street. In Miss Hatt's home several charming parties will be given.

Mrs. Kiser Hostess.
Mrs. S. M. Kiser of No. 421 North Virgil street was hostess one evening this week at a dinner party with which she entertained Mrs. Lucy Confield and Miss Harriette Canfield of Cleveland, O., who are guests at Hotel Van Nuys. Covers were laid for twelve and the table was decorated with roses and ferns. Last evening Mrs. Kiser entertained the visitors with a box party at the Orpheum.

Seashore Guests.
The winter season at Hotel Virginia, Long Beach is being enjoyed by Mrs. T. H. Hillington, Covina, Cal.; Mrs. H. White, Covina, Cal.; Mrs. W. B. Merion, Saginaw, Mich.; Master Jack Merion, Saginaw, Mich.; E. M. De La

Funigators Working Under County Authority Seek to Eradicate Expensive Pest.
SOUTH PASADENA, Jan. 13.—Funigators working under the authority of the county board of health, have been at work around this city for several days and have made rapid progress in the work of cleaning out the scale in the orange and lemon groves in this vicinity.

SCHOOL GROWTH.
The steady and phenomenal growth of this city is shown by the gain in school attendance as made evident through the report just made public by George C. Bush, supervising principal. The gain in attendance is over 17 per cent. Such a gain in population, continued, would give this city a population of over 25,000 people in 1920. The school figures show 678 pupils in the grammar grades, against 674 a year ago, and the high school has an enrollment of 20.

NO-LICENSE PLACE RAIDED.
Deputy District Attorney Helms, assisted by several detectives, conducted a raid on a poolroom in Glendora, owned by S. Kikuti, a Japanese, yesterday morning. In the afternoon the defendant was arraigned before Justice Kinmonth of Pasadena and sentenced to pay a fine of \$50 or serve time in the County Jail. He paid. Failure to

Newspapers—a world force—for good or evil?

An Announcement from Collier's

You breathe newspapers. Every day you take into your system their statements, their opinions, their pictures of life. You are largely formed by them. On the other hand, you help to create them. Your habits, your tastes, your wishes, determine their course. How much do you know about them? Practically nothing. COLLIERS believes that the public ought to be in closer touch with these sources of opinion and power. We have decided, therefore, to make the great feature of Collier's, all through 1911, a series of articles on the newspaper as one of the leading forces in modern society.

We shall give the history of the newspaper; show why free government could not exist without it; describe the value of yellow journalism, and its harm. We shall answer such questions as "What is News?" We shall explain the forces which a newspaper is compelled to face, including the financier, the advertiser, and the general reader. Part of the series will be written by experts from the inside. We shall take up journalism in various specific places. Residents of Boston, San Francisco, Charleston, Chicago, and many other towns and cities, will not only learn new things about their newspapers, but will tell us what they think about them. Will Irwin, after a year and a half of

investigation, starts with a series of fourteen articles, which will begin in COLLIERS for January 21st and will appear about every other week.

It would be easy to "muckrake" American journalism—to take an instance here, a defect there, and by massing detrimental truths present a picture of a press untrue to its ancient tribunate of the people.

COLLIERS has avoided that. We have tried to take the broad view of journalism, the virtues with the defects.

The series is intense with interest—holds you by its humor and drama. For we are dealing with the most romantic calling of modern times. Stories of the crises in journalism; glimpses of great characters hidden from the public view in the anonymity [which clouds the profession; intimate discussion of the failings and strengths of individual American newspapers—perhaps your own paper—make these articles as interesting as they are important.

It is a many-sided subject, entertaining, vital. We have taken such precautions to cover it fully that the American people at the end of 1911 will understand the press better than they understand it to-day. They will read it more intelligently. They will control it more effectually.

A Wonderful Dirt-Starters

SUNNY MONDAY Laundry Soap is kind to the clothes because it contains a marvelous dirt-starting ingredient which drives out the dirt in an all but magical way—saves most of the rubbing and saves your clothes.

Sunny Monday is a white soap, made from high-grade materials—choice fats and vegetable oils. It contains no rosin. All yellow laundry soaps contain rosin, and the majority of them are made from cheap tallow and refuse grease. Sunny Monday's whiteness is proof of its purity.

Try Sunny Monday next wash day and you'll never use any other laundry soap.

Coronado Polo Team Plays Great Game at Pasadena.

**SAVAGE DRIVE
SCORES GOAL.**

*Registers the Only Point
Against Coronado.*

*Major Ross and Crew Sweep
Over Pasadena B.*

*Premier Crown City Team Is
Plotting Revenge.*

BY H. A. WYNNE.

The sound of the small boy's hammer could be heard throughout Pasadena last night as he drove nails into the deep gloom that settled over the classic confines of the Crown City.

The gay and gaudy Coronado polo team had completely smothered Pasadena B. organization to the score of 16-0 after giving the Pasadena

RACE BETTING AND BOXING ON THE SKIDS AT CAPITOL.

*Gambling Comes First and Fight Game Held in Back-
ground Waiting Decision—Williams, Spreckels and
Leavitt Lining Up Forces For the Struggle—Stringent
Measures Proposed.*

THE swan song of race track betting will be sung Friday night before the Senate Committee on Public Morals. The best that Tom Williams, Adolph Spreckels and other horsemen hope for is to save the Paris Mutuals; it is a very forlorn hope. The boxing promoters have decided not to ask for a hearing until they see what happens to the racing men.

By W. R. WILLIAMS.
[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, Jan. 18.—[Exclusive Dispatch.] Senator Bell of Pasadena has set apart tomorrow night for the Senate Committee on Public Morals to hear the pleas of the racing men.

The meeting is arranged to give audience to the race promoters and the

GETS WOLGAST TO FIGHT HERE.

*Lightweight Champion Sends
Message to McCarey.*

*Neither Bride Nor Managers
Stand in the Way.*

*Roman and La Grave May Be
Matched Also.*

Ad Wolgast and George Memic are to meet before the Pacific Athletic Club at Vernon in a twenty-round bout, the date likely to be chosen being St. Patrick's Day, March 17. Manager McCarey last night clinched the match when he received the following telegram from Wolgast:

"Will postally meet Memic twenty rounds for you, all published re-

TOO HEAVY AS BANTAM.

*Young Rivers Is Growing
Out of Abe Attell's
Class.*

Ad Wolgast may defend the lightweight championship of the world some day from the assaults of Young Rivers.

Fight fans predict that this will be Rivers's last year as a featherweight. He is eighteen years old and there is every probability that he will take on weight as he attains maturity.

It is said that it is all he can do to make 122 pounds at present, and that he shows signs of putting on more ball.

His friends are urging him to pitch in and clean up the featherweight division while he can, or he will climb out of King Abe's class.

Dr. A. H. Savage Making the Only Score for Pasadena "B" Team in the Match Yesterday.
Reading from left to right, the players are: Maj. Ross, Fritz Nave, Dr. Savage and Cheever Chowdin. The ball is shown in air between the last-named players.

team a handicap of eight points.

The game was fiercely contested despite the one-sided score. There were rallies of the most superb character at different periods. The only score for Pasadena was made by Dr. A. H. Savage, assisted by Johnny Hobbs. In a skillful drive and follow-up, which practically took the ball from directly in front of the Pasadena goal down the length of the field, through the howling, rushing Coronado team, and safely back of their goal posts.

It was a beautiful play and brought the spectators to their feet in a howling mass. The little white ball had been rushed and pounded by Maj. Ross of the Coronado team right up in front of the Pasadena goal. Johnny Hobbs was the only man between Maj. Ross and the goal. He swept in between the onrushing major and the little white ball; deftly caught it a mighty swing, sending it cleanly fifty yards toward the middle of the field. Like a bullet, his little mare was down the field. Walter Dupee was between Hobbs and the ball, but scored a miss as he shot by. Hobbs came at the ball like a comet and, with a groan, the Pasadena rooters saw his mallet descend in a sweeping curve and leave the little white ball untouched.

SAVAGE CHARGE.

Thundering on his heels came Dr. Savage on a large animal. He was scarcely ten feet back of Hobbs and, as the latter swept by, Savage made a wide, vicious swing at the ball, hurling it spinning toward the goal posts of Coronado. The entire Coronado team was following at Savage's heels like a pack of wild Dervishers. Savage flew after the white sphere as though on wings and, with Maj. Ross and Walter Dupee on either side of him and endeavoring to "ride him off," he caught the little sphere a rousing whack, sending it flying between the goal posts for the first and only score of the Pasadena team.

The Coronado team gave exhibitions of some of the finest polo seen on the Coast in a decade. Maj. Ross scored alone eight of the goals made by his team. His playing was almost flawless. He rode off his man repeatedly and time and again carried the little white ball half the length of the field, unopposed, for a goal.

Cheever Chowdin, Walter Dupee and Fritz Nave all played in excellent form. Dupee played his No. 1 position with great success. Nave was fouled a quarter of a point for a foul unintentionally committed in the sixth period against McVitty. Dr. Savage of the Pasadena team was also penalized one-fourth of a point for fouling.

The attendance was a disappointment, but the club members predicted

opponents of the Walker-Young anti-betting bill which has advanced to this state of progress in the House.

A movement is under way to bring the Assembly Committee, of which Cronin of Benicia is chairman, to meet jointly, but it does not promise success and there probably will be two hearings. Both will be held Friday night.

Proponents of the anti-betting bill will be Senator Walker and Assemblyman Young, who offer duplicate messages; and Dist. Atty. Donahue of Alameda, and perhaps Frank Otis, who, with Walker, put the present anti-pool selling law on the books.

The opponents are expected to be T. H. Williams, of course, flanked by Adolph Spreckels and former Senator Leavitt of Oakland. In fact, the arrangement was made because it was sought by Williams and the racing interests.

While Williams, Spreckels, et al., will be trying to save oral betting, members of the Legislature have been led to expect a measure emanating from Charles Boots of Milpitas, who was "agin" race-betting two years ago, permitting the use of Paris-Mutual machines or this system of betting.

BY MUTUAL AGREEMENT.

It is believed that this measure will be the real fighting weapon of the race track interests. Boots has been here for several days and his talk indicated his leaning toward this "harmless" system, based on the theory that the people must gamble some way, and that this is the best system.

In the judgment of members of both Houses the hearing will be purely formal, for betting is foredoomed. It is the promise that the Walker-Young measure will go through without the change of a comma. If it does, all betting is "off" in California.

There is a belief that the law is directed only at oral betting on races. It is all of this and then some; for it prohibits any kind of wager or stakeholding at any time or place or in any manner, and makes one instance of betting just as much of a violation as if it were a regular business.

The final stand of the racing game at Emeryville promises to be a Waterloo. This stand was based on the defect in the Walker-Otis law of two years ago, which did not specifically prohibit verbal wagers. That law forbade bookmaking or registering of wagers. It was passed after a stormy fight as a response to the public will that there must be no gambling on races of any kind. The new measure is to make that conclusive and is to make it possible to prosecute any person who makes any kind of a wager, even on an automobile contest.

Drastic? There is a minority that thinks so. Its only answer to the passage of the bill is, "The Legislature is progressive; 'buff' said." That sentence tells the story.

But it seems Williams and Spreckels and Leavitt won't believe it and must be shown. The showing is to begin tomorrow night.

RACES, THEN THE BOXING.

Just as soon as the "progressives" knock out the race track gambling they will take up the anti-prize fighting bills. The skids are ready and well greased. There are just enough sports on the committee to give hopes that the bill of Rogers of Alameda will be reported instead of that of Hinshaw of Long Beach. The Rogers measure prevents any participation in the preliminary training or participation in a prize fight, but permits sparring exhibitions not to exceed six rounds of three minutes each with five-ounce gloves.

But Hinshaw's measure prohibits any kind of a ring or prize fight or a public or a private sparring exhibition with or without gloves. And it also provides a minimum punishment of not less than \$1000 or not more than \$5000 fine, or imprisonment of not less than one year or more than five years for a violation. Both measures are equally destructive of the "fight game," but one does save amateur boxing.

No arrangement for a hearing has been made except that the Assembly Moral Committee will probably take the bill up Friday night. Cronin is un-

ports to the contrary being untrue. May take on a six-round or ten-round first to try myself out."

Wolgast's message was in response to a query from Manager McCarey in which he demanded the fighter's own signature, agreeing to the terms. Wolgast's affairs have been in the hands of a number of persons, including Tom Jones, C. W. Dickinson and Ad's bride, and negotiations were of such a conflicting character that McCarey in despair declared that he would do business with nobody but Wolgast himself.

With the decisive message of last night to go by, McCarey is preparing to pull off the match and expects a record-breaking attendance. The championship title is to be at stake and although Memic is not legitimately in line for the honors, if he wins decisively he will be hailed as the new champion.

Many fans are willing to bet pretty close to even money that Memic has a good chance. In a former match Wolgast beat Memic decisively on points in a ten-round go. Memic says if

the route is doubled he can make a good deal better showing.

It is not likely that Wolgast will attempt any dangerous experiments in the six or ten-round go which he mentions in his telegram.

He will try some easy man so as to prove that his injured arm is all right again. Once satisfied as to this point he will go after the big fellows should he win from Memic.

The Pacific Athletic Club proposes to pull off a card January 23. Paul Roman may be given a chance to go on in the main event and Antonio La Grave is mentioned as most likely to be selected to meet him. If this match is made a strong supporting programme will be selected such as the card offered with the Webster and Rivers match.

Roman is conceded to be one of the best of the younger fighters and it is with the hope of bringing him out as near Joe Rivers that McCarey is to put him on. In his bout with Morris Bloom, Roman was unable to show his true fighting caliber as the Hebrew was entirely too clever to be cornered in ten rounds.

TIP O'NEILL IS UNDECIDED AS TO TRAINING GROUNDS.

BY GREY OLIVER.

THE CLASS A baseball leagues of the country low-towed toward the sunshine of Los Angeles yesterday for smiling "Tip" O'Neill, president, secretary and treasurer of the Western League and member of the National Board of the National Association, arrived here yesterday morning for a two days' visit on business. He is to leave this evening for Oakland.

As soon as Tip reached here he was taken in tow by Happy Hogan of the Vernon team and after visiting the various sporting resorts along Spring street, where "Tip" has many friends, the pair went to Redondo Beach to look over the ground with the view of having the Boston Red Sox American League team train there this spring.

It might be stated that in addition to his other honors O'Neill is the personal representative of John L. Taylor, owner of the Red Sox, and whatever he will say in regard to Redondo Beach as a training ground, will go with Taylor. "Tip" was not prepared to say last night what he would do about Redondo Beach, but it is understood that it has a deadly rival in Paso Robles for the affections of the Red Sox. A decision will be rendered today and it need not surprise anyone if Paso

Everything seems to be satisfactory as far as the beach town is concerned, and its closeness to Los Angeles may decide Taylor to bring his team here.

Taylor certainly made a wise selection in O'Neill as his advance agent of prosperity, for "Tip" is one of the deacons of baseball. He has had a standing offer from Comiskey to cash his lot with the White Sox at a much bigger figure than the salary he gets from the Western League, but he would rather be with a league of his own, as he calls it. He was chosen president of the Western in 1908 and again in 1909. Instead of making him a one-year president they elected him for five, and while his term did not expire until November, 1911, the league last November elected him to another five-year term so that he could properly handle the unpleasantness caused by the American Association and the Eastern League concerning their demands for a higher classification.

At the meeting of the National Association last November, he was elected to a five-year term as a member of the National Board, which is the Supreme Court of baseball. Consequently "Tip" will be there or thereabouts in baseball for the next five years. He expects to return east about February

PRETTY DAMES ON JOY JAUNT.

Apperson Quintette's Novel Stunt in Gay Company.

Dollar Princesses Whirled Over the Roads.

Speed Cops Spilled When Chasing Auto Pageant.

Joy rides in broad daylight, in ninety-mile-an-hour automobiles are thrilling. Every pretty girl in the Dollar Princess Company, now playing at the Mason, has discovered this new sport. Motor-car jaunting, it is called. It consists of a whirl about the city streets and a dash over the country roads to the beach and back.

When the girls of the gay company came to town for a week it was a problem to invent a plan for them to see the city and country all in a day.

Leon T. Shettler hit upon a novel idea. A procession of fast Apperson five and seven-passenger cars was placed in commission at once. The saffron-hued town car was given the place of honor at the head of the pageant.

The start was made from the Mason at 1:30 o'clock. It was a floundering trip through the city streets and the girls had no idea where they were going. Japanese parols were given to every unit in the cars. Boxes of candy were also distributed, just as a starter. Will Wyatt sent the machines away.

Thrashing the traffic of the main streets on a joyous hunt, the Appersons then struck out for automobile row and reached Pio street. Shettler was in the van with the hand-drawn machine with the bulldog growling defiance from the hood of the Apperson "Jackrabbit."

The bench was only eighteen miles away and the small little dames had never seen the Pacific. The hood of the Apperson was pointed toward the sea and the merry chase was begun. It was a reckless stunt but Shettler usually wins when he starts.

GREAT JOKE.

The "speed cops" have been vigilant of late. Twenty miles an hour was a joke for the Apperson on the smooth roads far from the traffic of the city streets. Shettler let his car out notch after notch and the drivers on the big raceabouts behind showed their surprise.

First it was twenty-two, then twenty-five and then it is hard to say how fast the cars were sent. The motorcycle men saw them coming. The Apperson procession, with flags flying and parols waving in the breeze, swung over the Washington street hill and looked great.

The men on the wheels got busy. It was a problem. They had never arrested a procession of automobiles. What should they do? The string of cars was almost upon them before they decided. Then the girls waved their hands in welcome and invited them to join the procession.

Both men took the tip. They swung in behind the cars unable to decide just how to act. The leading automobile, while watching the pretty faces in the moving automobiles forgot the railroad track crossing near the Soldiers' Home. His wheel hit the rails and he rolled over, possibly to be polite, fell also. That ended the "speed cops' chase."

THE OLD BOYS.

At the Soldiers' Home the girls and their escorts were given a rousing welcome. The old soldiers marched out in force to greet the visitors. It was an occasion for great joy and the boys in blue were as gallant as any band of drummers in the land.

"Aren't they polite," said Miss Welles, as she noted the gallantry of the G. I. men. "You're just too sweet for anything," said one of the gay old boys, who enjoyed the stunt particularly.

The Appersons were turned about after the beach was reached and a fast run home finished the stunt which Shettler had invented. For the first time the city and the country had been combined in a pleasant outing without the speed vigilantes getting in their work.

LARGEST GAME OF YEAR.

U.S.C. and Whittier to Meet in Second Game for Southern California Championship.

The most important game in the college schedule is to be played at the U. S. C. gymnasium tonight between the varsity five and the Whittier college team.

The S. C. men defeated Whittier in the first game a week ago and if they can repeat the performance tonight they will be practically assured of the championship. Whittier has picked up wonderfully since the last game with the Methodists and expects to play the best game in its career. Coach Robinson's men are keyed up to the highest pitch as they realize this is their only chance to make good as Southern California winners.

The advantage of the 'varsity of playing on the home court will be largely offset by the superior basket shooting ability of the Quakers and it is expected that the contest will be a fight all the way through.

M.C.A. WINS FIRST.

Long Beach Defeated in Short Scoring Contest in Series for the Championship.

The Y.M.C.A. indoor basketball team won the first game in the Southern California championship series last night when it defeated Long Beach by a score of 3 to 1 on the association floor.

Shanholzer, the pitcher for the local team, struck out twenty-four men and was largely responsible for the victory. He struck out twelve men in succession during the first part of the contest and it looked for a time like the rest of the nine was superfluous.

The next game in the series is to be played at Long Beach and, in case a third game is necessary to decide the final spot, it will be played on a neutral field.

Lang Loses on Foul.

LONDON, Jan. 18.—Bill Lang, the Australian heavyweight, was disqualified in the first round of his fight at Olympia tonight, with Percy Officer, the claimant to the British heavyweight championship, for hitting Officer while the latter was on his knees.

Beauties Out for a Joy Ride in the Saffron-hued Apperson "Jackrabbit." Sweet-faced maids of the Dollar Princess Company crowded into the coupe with the startling color finish. They were snapped at the finish of a spin to the beach and back.

CONLEY DRAWS WITH T. DEXON.

BORES INTO CLEVER OPPONENT WHO STAYS ROUTE.

Hammers Memphis Boy's Ribs, But Latter Backs Away and Elbises at Long Range—Frankie Is Outweighed—Conley Issues Challenge to Battling Nelson.

(ASSOCIATED PRESS NIGHT REPORT.) KANSAS CITY (Mo.) Jan. 18.—Frankie Conley, holder of the bantamweight title, and Tommy Dixon of Memphis, Tenn., fought ten fast rounds to a draw here tonight.

Dixon's whirlwind finish in the last round saved him from defeat. After seemingly being on the verge of a knockout for two rounds, he recuperated surprisingly and outboxed his opponent in the tenth.

The battle was a bloodless one. Emulating Battling Nelson, the Kansas fighter hored into Dixon from the tap of the opening gong. Dixon, who won the majority of his victories by outpointing his opponents, was kept on the retreat.

Although Conley hammered Dixon's ribs and stomach at will, the Memphis boy returned the fire gamely. A left jab and a strong right uppercut proved Dixon's best asset. Conley did not attempt to avoid blows, being content to rush into close quarters and give and take.

The bout was fought at catchweights. Dixon having four pounds advantage. Conley weighed 121 and Dixon 125.

After the fight Conley issued a challenge to Battling Nelson for a match at catchweights.

Fred Daniels of St. Joseph, Mo., and Pierce Matthews, of Denver, fought a ten-round draw as a preliminary.

COULON BEATS MORAN.

(ASSOCIATED PRESS NIGHT REPORT.) MEMPHIS (Tenn.) Jan. 18.—Johnny Coulon of Chicago, who claims the bantamweight championship, disposed of Terry Moran of Brooklyn, tonight, before the National Athletic Club in one round and a half. It was a clean knockout and Moran was not fully revived for an hour.

In the first round, Moran went down three times and at the end of the period was all but out. In the second, Coulon played for an opening and when it came, drove a stiff right to the body and a left to the jaw, which brought the boy to an end. They weighed in at 115 pounds.

Past and Furious.

DETROIT (Mich.) Jan. 18.—[Exclusive Dispatch.] After leading Tommy Hudson a fast, furious and even fight

William McGuire, who is expected to be a great pool champion some day, and who is playing a great game against Banks this week.

of five rounds at Windsor tonight, Cess Walsh of Chicago weakened in the sixth and went to the floor three times. The last almost finished him. He was up before the fatal trix, however, and stalled the round out. He kept his grit and finished the two final rounds in good style although plainly it was an unequal combat.

MINTYRE'S BLANK CONTRACT.

Says He Is More Than Satisfied With Figures Offered Him in Club Agreement.

(ASSOCIATED PRESS DAY REPORT.) CHICAGO, Jan. 18.—The blank contract idea, held to have been evolved by Barney Dreyfuss of the Pittsburgh National League, came in for official consideration by President Murphy of the Cubs yesterday.

When De Oro, world's champion, was here last year Maguire played him an exhibition game of 175 points and De Oro won by a score of 115 to 100, which is about the first time the local man had been beaten in public.

Maguire's class was shown in his game Monday night with Banks, the Coast champion, which he won by a score of 184 to 47. His high run was thirty-three and he had but one scratch game, which is remarkable in a 151-point game.

In the second game last night Maguire easily maintained his lead of 100 and increased it to 147. The totals at the end of last night's game were 201 for Maguire to 136 for Banks. Maguire now leads by a margin of 165 balls, and it is very unlikely that Banks can overcome this in tomorrow night's play, when they are to run out

MAGUIRE FAR IN THE LEAD OF BANKS IN POOL MATCH.

LOS ANGELES has had a tennis champion in May Sutton, a fight champion in Jim Jeffries, and it may have the Coast pool champion this week in William Maguire, a well-known local player who has been in this city for the last five years. He is now managing the Roselyn billiard room on South Main street.

He is 24 years of age, and was born in Napa City in the central part of the state. He started out as a billiard player six years ago and for four years played the straight-rail and ball-line game. As a matter of fact, he still holds the Coast amateur record at 142 ball-line in the Class B division, with an average of 19 in 20 points. His best run at 142 was 110.

Maguire has played many games in this city against all kinds of good men and has generally held his own, although at all times being out of practice for games with shortstop champions. He has dipped into all kinds of ball-line and a three-cushion player of considerable class.

Two years ago he began playing continuous pool, and since then has

WINS BY HEAD IN EMERYVILLE.

ARABEE PROVES THE BEST IN GILEAD HANDICAP.

Crowded in the Stretch He Beats Eddie Dale by a Head, Although Rider of Latter Claims Post. Clara W. a Surprise.

(ASSOCIATED PRESS NIGHT REPORT.) OAKLAND, Jan. 18.—Arabee, running gamely in wretched going, won the Gilead handicap by a head from Eddie Dale, at Emeryville today. Garner, on Eddie Dale, made a claim of foul but it was not allowed as it appeared as if Arabee was the one to suffer by being crowded. Clara W. proved a surprise by winning the first race. Results:

Futurity: Clara W. (Fischer) won; Sue Layton (Kirchbaum) second; Sokel (Martin) third; time, 1:14 1-2. Rosemore, Lady M., Sally O'Day, Napa Girl, Vengeance, Annala, Tahoe, Star Blaze also ran.

Futurity: Bell Cliff (Martin) won; Dublin Minstrel (Arhnbald) second; Hand Satchel (Pickens) third; time, 1:12 4-5. Dr. Bodine, Rousseau, Gypsis, Hal Worth, Bob Chocolate, Huxter also ran.

Six furlongs: Eddie Mott (Gargan) won; Godfather (Fisher) second; Chantilly (Selden) third; time, 1:18. Handstand, Despondent, Lord Provost, Tender Bloom, Gold Ball, Abe Suppaker, Ketchel, Redondo, Indian Girl also ran.

Five and twenty yards: Arabee (Glas) won; Eddie Dale (Garner) second; Roy Junior (Selden) third; time, 1:13 4-5. Don Caster also ran.

Nine furlongs: Pulella (Selden) won; Dovatta (Scoville) second; J. C. Clam (Martin) third; time, 1:54. Kopa, Military Man, John J. Rogers, Allens, Lvlus, Henry O. Charley, Paise, Buena also ran.

Seven furlongs: Marchmont (Glas) won; Parlor Boy (Callahan) second; Rene W. (Fisher) third; time, 1:30 3-4. Calla, Ironboud, Duce Campbell, L. C. Achery, Heather Scott, Ban, Hampsan Ann, Hampden also ran.

THURSDAY ENTRIES.

Six furlongs: Lascor, 104; Twickenham, 107; Great Caesar, Dutch Rock, Wealako, 103; Peccati, 102; Heretic, 101; Abella, 96; Ritta, Mona Lisa, 94; Ousander, 90; Doris, 88.

Seven-furlongs: Dodo, Jim Ozio, 112; Ray, Ma Ma, Ah Moon, 109; F. L. Proctor, Sheppard, Vanir, 107; Miller, Michael Angelo, 105; Marburg, 104; Madeline Musgrave, 101; Marigot, 99; Domitilde, 94; Ayame, The Ballin's Daughter, 92.

Eight-furlongs: Likely Deedone, 111; Daddy Gip, 109; Marchmont, 102; Meltondale, 101; Star O'Ryan, 99.

Five and twenty yards: Faneuil Hall, Sir Angus, Incentive, Winberry, Kaiserhof, Wap, 111; Springfield, 107; Sake, 106; Miss Picnic, 104; Altare, 99; Class, 97; Academicist, 88.

Futurity: St. Francis, 114; Sir Prefet, Beltsnick, Swagerint, Tillingham, Darrin, Evans, 111; Eddie Beau, 110; Little Jane, Sugar Maid, 109; Warfare, Minnedota, 106.

Results at 4 miles.

JUAREZ (Tex.) Jan. 18.—Only one favorite was successful at Terraza Park today. The other events went to second choices and long shots. Summary:

Three furlongs: Lady Hughes won, Lown second, Thistle Rose third; time, 1:25.

Four-year-olds and up, one mile: Lady Elizabeth won, Ada O. Walker second, Mission third; time 1:40 3-5. Six furlongs: F. E. Shaw won, Game Wood second, Flying Pearl third; time, 1:13 3-4.

Seven furlongs: Cobleskill won, Barney Oldfield second, Lucky Moss third; time, 1:27.

Eight furlongs: Moekler won, Cat second, Dubois third; time 1:30 3-5. One mile: Dennis Stafford won, Nebulous second, Lowen third; time, 1:40.

MOTORCYCLE CLUB MEET.

SAN BERNARDINO, Jan. 18.—The San Bernardino Motorcycle Club has fixed February 22 for the meet at Association Park. It is expected the Riverside club will participate. In addition to the fast riders of this city and Riverside it is planned to have daredevils from Los Angeles on the program. Derkum has already expressed a willingness to enter the events. Tuesday night another meeting will be held to perfect plans, and Wednesday night a Racing Committee including George Chambers, William Gurr, Ray Peck, Clyde Pierson and H. H. Kemp will go to Riverside to confer with the Riverside Club.

BOXER DROPS DEAD.

TACOMA (Wash.) Jan. 18.—Carl J. Ennen, a 15-year-old boy dropped dead during a boxing bout with a chum. The youngsters were fighting strenuously but the death was not attributed to any blow that was received. It was thought that heart failure resulted from the intense strain.

Baseball in Decline.

Baseball in college formerly was a popular sport, but since the game has become so popular and so many emotional teams have been formed, college aggregations are outclassed. Occasional Colleges usually have a few good players, but they are half a hundred nines of each lot which could play rings of them. Naturally this has caused dissatisfaction among college men and many of them secretly join semi-pro ranks. Baseball is the state, the money received to be used for the college and the college are having troubles. As a remedy it is proposed to permit students to play semi-professional ball during the summer. This would enter school in the fall with the money received to be used for the college and the college are having troubles. As a remedy it is proposed to permit students to play semi-professional ball during the summer. This would enter school in the fall with the money received to be used for the college and the college are having troubles.

FACTS FEATURES AND FANCIES FOR WOMEN.

DAILY BEAUTY HINT: When the feet ache or are exceedingly tired, it is impossible to look one's best. I recently heard of a new remedy for the feet and as it is so simple and inexpensive, any one who is able to try it. What helps one, will make no impression upon another person, however. When the feet are tired, rub the soles with a specially cut lens.

Only upon street cars do we see a pair of feet, but one scarcely notices the feet, because the shoes are so plain, or, as one of the "sinners" said, "they are so plain, they are almost invisible."

report that the Legislature may place the examinations in the hands of a special commission, and may revoke the right to admit graduates of the law colleges on motion without examination.

Men who will graduate from the University of Southern California in June decided that they had just as well be examined now as to have to pass through an inquisition later.

Those who were admitted are: Clifton R. Allen, Miss Iva J. Angier, Charles Frederick Baker, Minor La Verne Blythe, Lynden Bowring, Ira L. Brunk, P. Case, Charles L. Childers, Clarence Elliott Craig, William H. Cushman, E. L. Davis, T. A. De Bot, Horace Donnell, Charles H. Forward, Eric S. Gardner, Walter S. Gates, Victor Oscar Geoffrey, A. Wylie Griffith, Samuel C. Hall, Rex G. Hardy, C. H. Holton, Randall J. Hood, Glen E. Huntberger, Gordon Ingle, Jr., Harold Janeway, William P. Kelley, Joseph P. Keogh, Rowland Sherman Lacey, Francis C. F. Leonard, Thomas J. Leovy, LaPayette A. Lewis, J. Karl Lobdell, Alfred P. MacDonald, J. C. McGee, W. A. McGinn, John C. Miles, C. Elliott Miller, Cassius C. Misher, Hubbard Moor, Arthur Donaldson Moore, John G. Munholland, Ernest Eugene Noon, Stuart O'Melroy, C. W. Pendleton, Jr., George W. Per-Rhode, Ira Russell, Robert M. Sheridan, Victor Paul Showers, W. P. Smith, Roland C. Springer, Benjamin M. Stansbury, Arthur G. Stepper, Walter H. Stevens, Roland Thompson, Horton L. Titus, Charles Henry Tritt, Jr., Dorsey G. Whitelaw, Francis A. Wnidler, Joseph W. Wright.

Bids a Wee.
WAITS WORD FOR ROCKS TO HOP.

CONTRACTOR FOR GOVERNMENT GETS PINS SET TO HUSTLE.

Breakwater Builder Makes Ready to Start in Pronto After the Official Approval of His Contract. Many Things to Be Done Around Harbor Through Coming Year.

Like a very antitype of the great Fitzjames of Colantologie fame, Contractor W. S. Russell is of the opinion that the rock will fly presently. He is making extensive preparations looking toward assisting it to fly. In fact, it is not waiting upon anything except the deliberately postponed word of Uncle Sam to begin a sort of modified aviation from granite quarries sixty miles inland, to San Pedro, focus of the Los Angeles harbor enterprise.

Russell is the contractor to whom was awarded the government contract for the completion of the big San Pedro breakwater. Into the gap left by the original builders to prevent the silting-up they feared, Russell is presently to begin dumping big rocks and little rocks and middle-sized rocks until the entire 1900-foot, high-water hiatus is bridged over by an enormous dam, fifteen feet wide on the top and reaching far above the highest point reached by the most turbulent tide. For this service Uncle Sam will pay him \$1.25 a ton for rock in place.

By the terms of the agreement, the contractor is to have ninety days between the time of the final approval of the contract and the commencement of the work. Theoretically, this is supposed to supply the time for the necessary interval in which to make the extensive preparations required for a job of that size. Russell, however, contemplates taking time by the forelock and whatever convenient hand-

holds it affords, and cutting a respectable chunk out of that estimated to be necessary for the fulfilling of his contract. He is getting his pins all set to start in on the work almost simultaneously with the return of the documents from Washington.

Arrangements have been made for the securing of the stone to be used, which, like that of the original breakwater, will come from the Decies quarries on the Southern Pacific Railroad. It will all be good hard California granite, sharp-angled and close-packing, in pieces running all the way from a few pounds up to a score of tons. For handling the bits of the latter dimensions, cranes will be employed both at the foot of the Esplanade at San Pedro and at the quarries. The total rock necessary is estimated at something like 150,000 tons; the time needed for the job at about fifteen months.

The quarry work will be handled by a force of about sixty experienced hard-rock men, most of whom are ready to go out at a moment's notice. The force at the breakwater itself will be considerably smaller, on account of the more involved nature in the placing of the stone. They will be recruited chiefly from the old breakwater force and from the old wharves of Russia, and the newly-finished 600-foot dam in the Owens Valley, above Bishop.

Altogether, the work on the harbor promises to be lively for the next year or so. The San Francisco section dredge, promised for assistance on the channel job undertaken by the United States Army, is expected to arrive for the Tacoma concern, will be on the job within a few days. The present clamshell scoop will then be removed to the vicinity of Deadman's Island, and the big digger will take up in earnest the business of sucking up two million cubic yards of mud to make channels from the ocean basin to the east and west basins. It is the intention of the contractors to tackle the east channel first, starting from the turning basin itself.

JOINT INSTALLATION IS HELD.

Pomona Grand Army Men and Ladies of Relief Corps Hold Annual Event.

POMONA, Jan. 18.—In accordance with an annual custom long established the members of the local Women's Relief Corps and Vicksburg Post G. A. R., held their installation of newly elected officers at a joint session. The officers inducted to office in the W. R. C. by Mrs. R. B. Hoffmann, President, were: President, Mrs. Jennie Ralston; Senior Vice-President, Mrs. Percilla Houdyshell; Junior Vice-President, Mrs. Clara Kent; Chaplain, Mrs. Howell; Conductress, Mrs. F. E. Perley; Assistant Conductress, Mrs. G. W. Clark; Guard, Mrs. Mary Kirby; Patriotic Instructor, Mrs. Minnie Miner; Press Reporter, Mrs. Douglas; Color Bearer, Misses A. E. Pelton, Mosher, Stormer, Morgan; Musician, Mrs. L. C. Hamann.

The officers installed in the G. A. R. by Rev. C. P. Wilson, were: Commander, C. W. Riley; Senior Vice-Commander, H. C. Anderson; Junior Vice-Commander, S. G. Stover; Quartermaster, J. P. Bowen; Surgeon, Dr. Harris; Officer of the Day, H. S. Boos; Chaplain, C. P. Wilson; Officer of the Guard, J. S. Withrow; Adjutant, A. S. Averd.

The Pilgrim Brotherhood of the Congregational Church met last evening and discussed the proposed new city charter and the duty of the Brotherhood at the coming election. John Leedingham, president of the Brotherhood, presided and the discussion of the charter was opened with addresses by J. J. Albert, Dr. Clarence H. Lee and Russell K. Pitzer.

Gas Talks

CHAPTER 2.

From \$12.50 to 80c

Gas at 1 1/4c a foot would not be very popular in Los Angeles now, yet that rate once prevailed here. As compared with the product supplied at present for 80 cents per 1000 cubic feet, it wasn't very good gas, either.

Since 1889, when the charge was \$2.50, the Los Angeles Gas and Electric Corporation has reduced the rates voluntarily from time to time until the present remarkably low price was established, placing this city in a class almost by itself with respect to the cost of this indispensable commodity.

In face of these frequent revisions in charges, the quality of gas was improved as advanced methods came in, until now Los Angeles is supplied with the best that can be made.

Through the perfection of the process of making gas from oil, this company has become a consumer of the high-grade output of the Whittier fields, thus aiding materially in the development of one of our greatest home industries. Many thousands of barrels of the best gas-making oil are used monthly, the production and transportation thereof giving employment to a large number of men.

In the making of gas from oil, the Los Angeles Gas and Electric Corporation was practically the pioneer, and consumers have ever been the gainers as new methods and late inventions were adopted to lessen the cost of production.

Instant Relief from Neuralgia

Sloan's Liniment has a soothing effect on the nerves. It gives instant relief for neuralgia or sciatica.

HERE'S PROOF.
Mrs. TARBOR, of 2 Champey St., Roxbury, Mass., writes: "I have used Sloan's Liniment for a number of years for neuralgia and rheumatism, and find it gives instant relief. This fall my husband sprained his ankle, and the pain and soreness were relieved after a few applications of the Liniment, and he was able to go to work in a short time."

RELIEF FROM SCIATICA.
W. H. HAWKINS, of Frankfort, Ky., R. D. No. 2, writes: "Before using your Liniment I had been in bed with sciatica for some time. After I began its use, I got relief."

SLOAN'S LINIMENT

is the best remedy for rheumatism, cold in chest or lungs, sore throat, sprains, cuts or bruises. At all dealers. Price, 25 cts., 50 cts., and \$1.00.
DR. EARL S. SLOAN, BOSTON, MASS.

ber to be tried out in Sonora. The ground is well watered, but many new ones will be sunk.

A group of experts in agriculture and mining will arrive in Douglas probably this week to go into the field and report on its various resources.

NEW BEAN VALUABLE.
The experts at the experiment station in the Sulphur Springs Valley have demonstrated the value of a new bean known as the "Brown Tepary," which it has been found, is superior to the well-known frijole of the Southwest, resisting drought much better, and producing crops more abundantly.

PAYING SILVER MINE.
C. B. Bell has shipped a variety of silver ore from the Agua Buena, a mine located out from Nacozari in the Moctezuma district, which after paying all expenses of transportation and smelting at the Copper Queen smelter, netted \$3005. The mine is a new one. Not long ago Bell interested W. T. Smith and A. L. Warner with other associates in Duluth, Minn., in the mine, and both Smith and Warner are now in Douglas. Both will go down to look at the property. The samples from the new strike are among the most wonderful brought into Douglas in the face of the drift the high-grade streak of ore is twenty-one inches wide, and the samples have assayed as high as \$2500 a ton. Warner is heavily interested in the Calumet and Sonora zinc mine in the Cananea district, of which company he is chairman of the board of trustees and manager. He will visit the Cananea property also, before returning home.

THE RAILWAY WORLD.
The increased taxes laid on the railroads in the past few years have been a considerable drain upon their earnings. In twenty years the taxes laid upon the Delaware, Lackawanna & Western road by the State of New Jersey have increased 280 per cent, and from 5.4 per cent. on gross earnings to 8.2 per cent. While this is an exceptional case the returns of Poor's Manual show that for 1908, as compared with 1908, railway taxes increased from \$2,577,619 to \$90,790,949, or about 10.2 per cent., as compared with 2.8 per cent. in mileage, 4.4 per cent. in gross earnings, 5 per cent. in capital stock and 3.7 per cent. in funded debt. Unfortunately, too, this comes at a time when it adds its load to the other financial burdens that the railways are carrying in the shape of increased wages and high cost of supplies. It would be a considerable increment were those two factors constant. Added and Copeland.

Baseball Today.
The Giants and McCormicks are starting this afternoon on a five-game series at the Vernon grounds, games to be Thursday, Friday, Saturday and double-header on Sunday afternoon. The McCormicks line-up will be: Long, Seaton, Lafferty, Mann, Hart, Goodman, McKay, Householder, Hare and Copeland.
